Life Coach Academy

What Is Life Coaching?

If you want to make a difference to your own life and the lives of others become a Life coach! This profession brings enormous joy to your life, the lives of the clients you coach. This then ripples out to partners, children, loved ones and colleagues to supply wonderful and amazing benefits, on many levels.

Life coaching is about closing the gap from the life you are currently living now, to you living your dreams.

It is about transformation – taking you and then you taking your clients from the caterpillar stage to flying as freely as a butterfly. The key is that you must want to fly so much that you are willing to give up being a caterpillar!

Life coaching can be compared to a highway maintenance team, first discovering the problems, then repairing those problems to smooth Life's journey and take the traveler to the destinations of their choice, via the most direct and affective means. The alternative is to be challenged with a slow, rough, pothole riddled, winding road of inactivity, limitation, lethargy, and procrastination, where one drifts without purpose or direction.

Life coaching skills provide the essential tools for prospective Life Coaches, NLP Practitioners, Training Professionals, Human Resource Managers, Councilors, Sports Coaches, Team Leaders and Sales Professionals.
